

EV charging now available at Tonsley

Powered by CleanPeak Energy

CleanPeak Energy (CPE) is the operator of the embedded energy network at the Tonsley Innovation Precinct.

We specialise in delivering smarter, renewable energy solutions to businesses and communities, helping support a more sustainable future.

As part of this commitment, we're pleased to announce that EV charging is now available onsite.

EV charging now open

EV charging is now available at Tonsley for tenants and visitors.

- 4 x 7kW AC chargers available now
- 4 x 60kW DC fast chargers coming soon

Whether you're topping up during the workday or charging while visiting the precinct, our facilities are designed for convenience and accessibility.

Pricing

- \$0.40 per kWh.
- No subscriptions or hidden fees.

Finding the chargers

All chargers are now listed on PlugShare, making them easy to locate and navigate to for most EV drivers.

Renewable energy

Charge your vehicle with energy backed by renewable solutions.

Download the **Exploren app** today to start charging!
